

Web Tracing by URL

Canadian Freightways web tracing by URL will allow you to send your shipment identification numbers in a URL string to our system. In return, you will be directed to tracing results on our web site.

In all cases below, the "lang" parameter is optional (English is the default). Valid values are "e" for English results or "f" for French results. At least one shipment identification number is required. A maximum of 10 are allowed.

Tracing by PRO:

<https://www.canadianfreightways.com/tracing/by-url?lang=e&PRO=NNNNNNNNNN>

NNNNNNNNNN : Canadian Freightways 10 digit pro number

Tracing by Partner PRO:

<https://www.canadianfreightways.com/tracing/by-url?lang=e&ILPRO=XXXXXXX>

XXXXXXX : Partner pro must be between 5 and 15 characters in length.

Tracing by Bill of Lading:

<https://www.canadianfreightways.com/tracing/by-url?lang=e&BOL=XXXXXXX>

XXXXXXX : Shipment bill of lading number must be between 3 and 25 characters in length.

Tracing by Purchase Order:

<https://www.canadianfreightways.com/tracing/by-url?lang=e&PO=XXXXXXX>

XXXXXXX : Shipment purchase order number must be between 3 and 20 characters in length.

Tracing by Customer Reference:

<https://www.canadianfreightways.com/tracing/by-url?lang=e&REF=XXXXXXX>

XXXXXXX : Shipment customer reference* must be between 3 and 20 characters in length.

* If you have a reference numbers for shipments that are unique to your company in addition to the bill of lading and purchase order numbers, you must make arrangements with Canadian Freightways to have this number entered in our system during our billing process prior to web tracing.
