

The Regional Flat Deck Service provides transportation services to complete the supply chain for aspects in industry that the enclosed vehicles cannot cover. With a local regional focus in Calgary, our resources are ready and available with minimal notice that is reliable and safe. Our flat deck service gives construction, infrastructure, oil and gas, fabrication, manufacturing and even agriculture a consistent and dependable option for their transportation needs. Lumber, Steel, Machinery, Wall/Flooring Panels, Fabricated Parts and Crane modules are just a few commodities that are serviced with our Regional Flat Deck Services.
